

THE ALL-NEW SPORTMAX Q3+

MORE PERFORMANCE + 20% MORE TIRE LIFE = Q3+

DUNLOP

FEATURES & BENEFITS

- MT Multi-Tread™ technology in the Q3+ rear tire uses a silica-infused, long-wearing compound in the center of the tread for over 20% longer tread life, and special lateral grip compounds on the left and right shoulders for outstanding grip.
- The all-new Q3+ offers superb grip, stability, and steering feel with faster lap times on the track.
- Only hypersport tire made in the U.S.A., the Q3+ was designed at Dunlop's Buffalo, NY headquarters, and manufactured in the Buffalo plant on the same high-tech production equipment as Dunlop's racing tires.
- Dunlop's Carbon Fiber Technology (CFT) employed in the Q3+ uses carbon fiber reinforcement in the tire sidewalls for exceptional cornering performance and feel.

	SIZE	LOAD/SPEED	PC PART #
